

You've planned your next project down to the very last detail. Or have you?

Time is money. The comfort of a work team might not be a priority for every project manager, but work team efficiency certainly is. We can help customize a few rules of thumb (one portable restroom plus one weekly servicing for every ten workers on site) to a strategy specific to your project.

Plans specific to your goals are the result of our desire to contribute to your success. We've got the experience to help you succeed.

Individualized service is the only way we know to stay in business. Ask for our references!

OSHA Restroom Requirement	
<u>Employees</u>	<u>Restrooms Needed (Weekly Svc)</u>
1 - 10	1
11-20	2
	1 add. for each 10 add. employees
<i>The average time needed, including travel, to take an off-site restroom break is 7 minutes. If you divide a worker's pay plus benefits/hour by 60 minutes, you'll discover the cost for each minute of restroom usage.</i>

Consider providing your employees with handwash facilities. No more leaving the job site to clean up prior to breaks, or when covered with dirt and grime that waterless sanitizers won't remove.

Your workers are more efficient with the *right* plan, the *right* equipment, the *right* service. One company does it all!
